

CENTRAL LINE SECUREMENT DEVICES

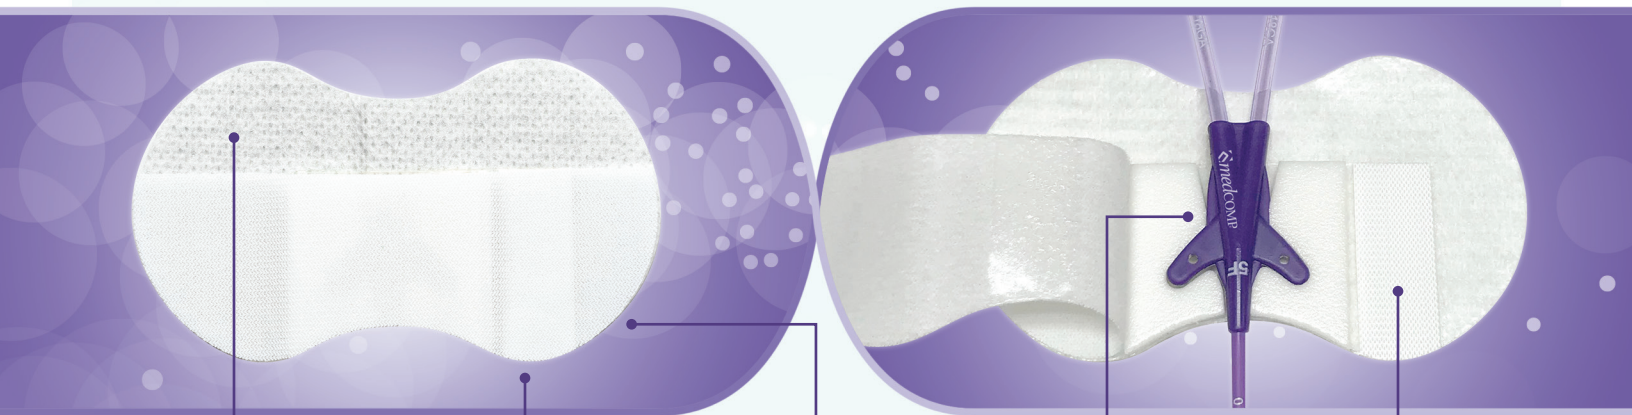

Safe. Secure. Simple. Leveraging the trusted low-profile, adhesive based design, the Grip-Lok[®] securement device is designed specifically to accommodate Medical Component's portfolio of PICC, CVC, and Midline catheters.

Patient Comfort

- ▶ Developed with medical grade, hypoallergenic adhesive
- ▶ Flexible materials and low profile design

Ease-of-Use

- ▶ Hook-and-loop tab allows access to the catheter
- ▶ Large and glove friendly peel-away liners

Breathable, non-woven bandage material resists moisture

Hypoallergenic skin contact adhesives

Large peel away liners for easy application

Adhesive areas grip without plastic locking mechanisms

Hook-and-loop technology allows access to the line
